

Customer Specific Requirements

-

Airbus Defense

Document responsibility:

If you have any queries about this document, then please contact your contracting manager within the GKN Aerospace Systems Europe and Asia (ASEA) organisation who will be able to put you in contact with the appropriate person(s).

Scope:

This Customer Specific Requirements per Programme applies to all suppliers, each of its employees, subcontractors, sub-tier supplier, consultants or agents (all referred as “**Supplier**”) who provides Articles or Services to GKN ASEA and its organisations, irrespective of:

- (i) where the Supplier is located;
- (ii) the industry within which the Supplier operates;
- (iii) any certifications and/or accreditations which the Supplier may have.

This Customer Specific Requirements per Program are in addition to the Supplier Quality Assurance Requirements (“SQAR”) and any other agreement or terms and conditions that may be in place between GKN ASEA and the Supplier.

Record of Revisions

Issue	Date	Summary And Reasons For Changes
0	January 01, 2020	Initial Issue

Purpose

This SQAR details specific requirements and expectations of GKN ASEA, based on the AS/EN/JISQ 9100/9110/9120 requirements. This means that the paragraph structure of this SQAR remained the same. All AS/EN/JISQ 9100/9110/9120 chapters not referenced in this SQAR document shall be interpreted as “Comply with AS/EN/JISQ 9100/9110/9120”, with no additional requirements.

Any approval which GKN ASEA gives to the Supplier under or pursuant to this SQAR is solely for the purposes of ensuring that the Supplier meets the minimum quality requirements required by GKN ASEA.

GENERAL

The Supplier shall comply with:

- (a) The requirements specified in the latest revisions of each Specification called out on engineering drawings, planning, purchase order, engineering specifications, Article Data Package (ADP), Procurement Data Package (PDP) and/or other applicable design documents as supplier and/or Reference Documents

Airbus Defense and Space

All quality requirements for the Airbus Defense and Space programs (e.g. A400M) are embedded as described in the Generic Supply-Chain and Quality Requirements for Suppliers that can be found under the header “Defense and Space”: <https://www.airbus.com/be-an-airbus-supplier.html>

Airbus Subcontractors, its sub-tiers and distributors/stockists shall use only qualified material products from Airbus approved sources listed in the Airbus Qualified Parts List (QPL). For Industrial reasons, only for a new standard or a new standard part 1st source qualification (qualification during new A/C Program development) it is allowed to procure parts with Qualification status P1 (technical qualification in progress). Any additional need for material product not listed in the Airbus QPL shall initiate the Request for a new couple qualification.

In case the AQPL can't be retrieved GKN ASEA shall be contacted.

Programs: A400M (TED & SPAR's), A4W
