

1 Introduction

The Supplier acknowledges that proficient packaging of the Goods, including the accompanying documentation is one of the essentials of the Program.

To prevent stagnation in the manufacture and / or supply chain of the Product and to assist Fokker towards its Customer, the Supplier shall comply to the following packaging and marking requirements:

- Ensure Goods integrity during handling, transport, storage and distribution activities,
- External identification, including shipset reference, serial or batch number, possibly life limits data, Supplier identification, destination address and Purchase Order number.
- The treatment and marking of all wooden packaging material, such as but not limited to crates, pallets and wedges shall comply with the ISPM 15 regulations, EC Regulation 1005/2009 and WTO notification G/SPS/N/EEC/221/Add.5 dated November 27, 2008.
- All Goods shall be supplied in closed boxes, crates or cartons to facilitate Fokker's compliance with prevailing export regulations.

Supplier may be required to demonstrate the compliance of the packaging with the above packaging and marking requirements.
