

Engineering Bulletin

Engineering Bulletin No.: 2025-03
Release Date: 03/04/2025
Subject: Process Specification Flow Down

Dear Valued Supplier,

As of February 6, 2025, GKN Aerospace Wellington has implemented a change in how process specification revisions are communicated to our suppliers.

Process specification revisions are no longer listed on the GKN Aerospace Wellington supplier portal. Instead, all specification revisions are now included directly on the GKN Aerospace process order. Please review your process order to ensure you have the correct revision information.

If you have any questions or need further clarification, please contact the GKN Aerospace buyer listed on your process order.

Thank you for your continued support and cooperation.
